Studying Insects to Understand Our World

DEPARTMENT OF ENTOMOLOGY

THE OHIO STATE UNIVERSITY

COLLEGE OF FOOD, AGRICULTURAL, AND ENVIRONMENTAL SCIENCES

Entomology

Entomology involves the study of insects and their relatives from the cellular to the ecosystem level of organization, in such areas as evolution, ecology, physiology, morphology, systematics, toxicology, behavior, and genetics.

A significant component of entomology is applying these topics to address the important economic, public health, and environmental impacts of insects.

Entomology opens doors

VARIOUS FIELDS OF EMPLOYMENT

Non-Governmental Organizations

- Museums
- Zoos, Botanical Gardens & Collections
- Research

Private Industry

- Seed, Agrochemical, and Food
- Crops
- Urban Pest Control

Federal & State

- Military
- Research Labs
- Extension Services
- Departments of Agriculture, Natural Resources, and Health
- Regulatory Agencies
- Academic Institutions

Entomology widens career options

POTENTIAL CAREERS INCLUDE

- Forensic Investigator
- Military Entomologist
- Museum Insect Curator
- Pest Clinic Diagnostician
- Pesticide Sales Representative
- Pest Management Specialist
- Plant Protection and Quarantine Officer
- Research Assistant
- Science Educator

By the Numbers

Entomology at Ohio State is unique

1

ONE & ONLY

is the only university department in Ohio focused on the study of insects, offering both majors and minors programs

13

ACTIVE RESEARCH LABS

Engaging in basic and applied research

Contributing to outreach and engagement

Providing information to agricultural and industry groups throughout the world

\$22,405

2022 STUDENT SUPPORT

\$16,355 in Undergraduate Scholarships

\$6,050 in Graduate Student Awards
